

### Greeting

Nippon Leakless Corporation was established in November 1955 and now provides such products as gaskets and packings to customers that manufacture automobiles and industrial products. We are the first manufacturer in the world to use stainless steel for engine cylinder head gaskets. We offer our customers excellent development capability and quality products generated through our integrated manufacturing system that include everything from materials to finished products in an optimal style for customers through our companies established in ten countries worldwide.

*Ichiro Miyamoto*  
*President*

The word Leakless is not covered by dictionaries. It means having no leak, that is, we tolerate no leaks. In line with our mission to “create technology and products that have never existed in the world,” we will walk with our customers.

### Mission statement

Our customers are our top priority.

We pursue profit through diligence in our daily business. At the same time, we have a global perspective and protect the global environment.

We develop our personality and nurture a happy company culture where all associates find things worth doing, and contribute to society and the entire world.
